

IN CONJUNCTION WITH
EASTON300 ARTS & CULTURAL FESTIVAL
A SPECIAL CONCERT AND PRESENTATION:

Where Music, Art, History & the Easton Community Come Together

North Easton's Unity Church has been an oasis of architecture, art, music, and history since it was built in 1875.

Take a seat in Unity's Sanctuary for an afternoon of music and history with local historian Ed Hands. Explore the architectural design of the building by James Ames Mitchell, admire the stunning stained-glass windows by John LaFarge and Charles Connick, and take in the beauty of the richly carved altar screen by Jacob Kirchmeyer. Throughout the sanctuary, you'll find intricate marble memorials and learn about the history of the magnificent Hook and Hastings Pipe Organ.

Stay after for refreshments and the chance to ask Ed Hands more about the history of Unity Church.
